

Welcome to the Discovery Spotlight Virtual Expo! We're so glad you'll be joining us.

Please follow the following guidelines for each competition you have entered.

Video submission tips:

- * Be sure to shoot videos horizontally (sideways)
- * Shoot outdoors, if possible.
- * Pick an iconic location in your area of the country as your backdrop, if possible.
- * Do not move the camera. Use a tripod or stationary surface, if possible.
- * Do not zoom the camera in and out. Let the model do the moving.

All photos and videos should be sent in one email to production@discoveryspotlight.com. The contestant's name and confirmed showcases/competitions should be included with the message. If there are any problems with your submission, our technical team will let you know how to correct your submission.

Our production team will add your name, contestant number, and the Discovery Spotlight logo to all photos and videos. Please follow the time limits and attire for each competition outlined at discoveryspotlight.com/showcases.

MODELING | FASHION RUNWAY, JEANS RUNWAY, SWIMWEAR/FITNESS

Have a family member or friend record your runway walk. You can do this in your home, an office, an empty room, or outside. Please make sure there is plenty of space and ample light. Solid walls and patternless furniture are recommended.

Walk between 10 and 15 full strides with nice posture, looking straight forward. Once you get to the end, pause for two seconds, look forward, to the left, and to the right, showing off both (sides of your face). Look straight ahead again for two seconds, take a step back to turn around, and walk back to your starting position. Turn around to face the camera and smile. Children can smile the entire time or as much as feels natural.
